## Experience

**Legends Global Merchandise** Indianapolis, IN
**ERP Functional Analyst** Jan 2025 – Present

- Administer and support a connected M3 (ERP), WMS, Shopify, TMS, Infor OS/ION, Birst, and Ad Hoc Reports environment for business users across operations, finance, and IT.
- Partner with the ERP (M3) Product Owner to prioritize the Sales Management and TMS (Transportation Management System) backlogs in Azure DevOps, supporting sprint planning to deliver system enhancements to the business.
- Built out M3 duties-and-taxes functionality for e-commerce sales transactions, enabling a shift from DAP/DDU to DDP for select international markets to reduce freight spend and improve user conversion rates.
- Authored the documentation and API guidance the integration team used for e-commerce, POS, and 3PL integrations.
- Partnered with the business on continuous-improvement initiatives, reversing a six-figure annual freight loss to net-positive year-to-date while supporting WMS stabilization, finance accounting-rule enhancements, and EDI/dropship setup.
- Resolve user issues through ServiceNow and reduce ticket volume with ERP documentation and end-user training, cutting recurring support tickets by 25%.

**ERP Data Specialist** Oct 2022 – Dec 2024

- Migrated 10+ business clients from Sx.e to Infor M3 on schedule despite competing priorities, leading a 5-person team across data validation, UAT, and post-go-live resolution in Azure DevOps (ADO).
- Maintained dashboards, exception reports, and operational metrics in Power BI and Birst to monitor orders, inventory, and fulfillment.

**Amazon** Plainfield, IN
**Fulfillment Area Manager** May 2021 – May 2022

- Drove $145K+ in cost savings and a 5% pack-throughput gain over 12 months by leading Lean Six Sigma initiatives across outbound fulfillment.
- Increased outbound throughput by 10%, running quarterly forecast reviews and partnering with leadership to rebalance labor plans against historical productivity and market data.
- Maintained 99% order accuracy across 17,000+ daily orders and three outbound process paths while managing daily operations for 70+ associates in a fast-paced, automated environment.

## Education

**Florida International University** Miami, FL
Dual BBA, Business Analytics & Information Systems May 2021
**Relevant coursework:** business analytics, business intelligence/reporting, systems analysis & design, project management, operations analysis, and strategic management.

## Leadership & Activities

**Association for Latino Professionals for America (ALPFA)** Miami, FL
**Tech Group President** May 2020 – May 2021

- Taught weekly workshops for 60+ students on Power BI, Tableau, SQL, and Excel, and led a six-person executive board delivering technology curriculum and professional-development programming.
